

The Calgary Region as a Transportation Hub Conference

N o v e m b e r 1 8 , 2 0 1 1
E x e c u t i v e I n n , C a l g a r y

Date

Friday, November 18, 2011, 7:30 a.m. - 4:30 p.m.

Location

Executive Inn, 2828 - 23 Street NE, Calgary, AB

Details

This full day conference will be comprised of morning and afternoon sessions (presentations and panel discussions) with a lunch keynote address.

Purpose

Leaders from the transportation, supply chain, logistics, distribution, air transportation, surface transportation, passenger transportation, and warehousing industries will discuss a vision of Calgary's future economy and develop a blueprint for the transportation infrastructure and policy changes required to support that economic vision to ensure that the Region maintains its competitive advantage as Western Canada's distribution hub.

Attendees

The conference invitees will include a cross-section of transportation expertise ranging from transportation users and suppliers and public officials.

Registration

Registration will be available shortly at www.vanhorne.info and www.cwf.ca

Key Benefits

- Hear about an future economic perspective for the Calgary Region
- Understand key issues affecting transportation, distribution, air service, and supply chain and logistics sectors
- Help to define a vision for the transportation network and infrastructure for the Region from the viewpoint of transportation users and providers

Pre-Conference Workshop

Project Management: Best Practices, Tools, and Processes

November 17, 2011, 8:00 am-4:30 pm

The Van Horne Institute is pleased to present this certificate short course providing an overview and framework of project management processes, tools and applications.

Module 1 of the course will include the application of management principles and tools to the project environment; planning, control, scope, time and cost processes; project organization and human resource issues. Participants will explore the practical applications of project management techniques through the review of case studies to understand best practices (morning)

Module 2 of the course will include a structured approach of risk analysis and management, incorporate risks and uncertainties to develop schedules and estimates, level of accuracy and contingency, simulation applications, case studies and applications (afternoon)

WHO SHOULD ATTEND: Supply chain, logistics, operations management, procurement, distribution, and transportation professionals in coordinator, specialist, director, and management roles. You and your entire team will benefit from this professional development opportunity.

PROF. GEORGE JERGEAS, P.Eng.

Professor Jergeas is a Professor of Project Management (PM) at the University of Calgary. He was the Director of the Project Management Specialization from 2000-2004. Dr. Jergeas is a Civil Engineer with a MSc and PhD in Construction Management from Loughborough University, UK. Dr. Jergeas joined the University as a full-time academic coming from industry in 1994. During his employment with Revay and Associates, he investigated over 30 construction projects, both in Canada and the USA, experiencing cost overrun and delay. Dr. Jergeas' experience in industry and subsequent research has demonstrated a strong interest in improving the efficiency of projects. Dr. Jergeas' expertise includes team building and partnering, claims and disputes, alternative dispute resolution, contract administration and construction productivity and PM training and coaching. Dr. Jergeas is an active consultant in PM including training and guidance for projects in several international countries.
